

NEOPHIR

Tavern Barrels

TAVERN BARRELS

These casks can be found in every pub or tavern. Wine, beer or liquor was transported and stored in such wood barrels or the beverage was served right from the tap.

The pack contains files for:

- 1 barrel with tap on stand
- 1 open and filled wine barrel with separate cover
- 1 smaller, bulky beer barrel

Models are designed for 28mm miniatures, but might be re-scaled to fit your game or diorama.

They are suitable for various historic periods or game types.

N0003P1_barrel_with_liquid

N0003P1_barrel_cover

N0003P1_barrel_bottom

N0003P1_barrel_top_with_tap

N0003P1_barrel_stand

N0003P1_beer_barrel

PRINTING AND ASSEMBLY TIPS

Recommended print settings

Support	prints without support
Layer height	0.05-0.2mm (0.2mm recommended)
Infill	20% recommended
Approximate build volumes for prescaled files (this are not final model dimensions)	2,1 cm * 2,1 cm * 2,2 cm

1. Depending on your printer accuracy and print setting remove brim from N0003P1_barrel_top_with_tap.
2. Glue N0003P1_barrel_bottom and N0003P1_barrel_top_with_tap together.
3. Optional: Glue barrel on stand.

LEGAL NOTICE

Please note that this offer contains STL files only.

You will need a home 3D printer or use a print service to get the parts printed. Models were designed for and tested with home FDM printers with 0,4 mm nozzle, 50-200 microns layer high and PLA plastic.

Print quality and results may vary depending on the used 3D printer and the printing and slicing software and used scale and parameters. Details might be lost, additional support be required or printability impacted in general when rescaling.

You may need to rotate objects for optimal printing or add supports, particularly for overhanging areas.

Figures, accessories and surrounding scenery seen in pictures are for demonstration purposes only and are not part of the product.

See the product description and/or item list of the digital models to find out exactly what the files contain.

All models and files are for personal use only and may NOT be used for commercial purpose (selling and/or distributing for profit).

All files are copyrighted works. Do not copy, alter, share, modify, or sell these files or the digital or physical models these files produce (2d or 3d).

We advise reading the full [terms and conditions](https://www.neophir.com/terms-conditions/) (<https://www.neophir.com/terms-conditions/>).
