

**NEOPHIR**

**Space Crates**

## Space Crates

These sci-fi shipping containers are used to store any cargo in the storage section of space sips. You can find many of these crates in the warehouse of each outpost in the solar system.

The pack contains files for:

- a small size crate
- a cover for the small crate
- a medium size crate
- a cover for the medium crate

Models are designed for 28mm miniatures, but might be re-scaled to fit your game or diorama.

They are suitable for various historic periods or game types.

## PRINTING AND ASSEMBLY TIPS

Recommended print settings

<b>Support</b>	<b>prints without support</b>
<b>Layer height</b>	<b>0.05-0.2mm (0.2mm recommended)</b>
<b>Infill</b>	<b>20% recommended</b>
<b>Approximate build volumes for prescaled files (this are not final model dimensions)</b>	<b>4,0 cm * 5,5 cm * 2,9 cm</b>

No further assembly is required.

It is recommended to remove burrs thoroughly.

## LEGAL NOTICE

Please note that this offer contains STL files only.

You will need a home 3D printer or use a print service to get the parts printed. Models were designed for and tested with home FDM printers with 0,4 mm nozzle, 50-200 microns layer high and PLA plastic.

Print quality and results may vary depending on the used 3D printer and the printing and slicing software and used scale and parameters. Details might be lost, additional support be required or printability impacted in general when rescaling.

You may need to rotate objects for optimal printing or add supports, particularly for overhanging areas.

Figures, accessories and surrounding scenery seen in pictures are for demonstration purposes only and are not part of the product.

See the product description and/or item list of the digital models to find out exactly what the files contain.

All models and files are for personal use only and may NOT be used for commercial purpose (selling and/or distributing for profit).

All files are copyrighted works. Do not copy, alter, share, modify, or sell these files or the digital or physical models these files produce (2d or 3d).

We advise reading the full [terms and conditions](https://www.neophir.com/terms-conditions/) (<https://www.neophir.com/terms-conditions/>).
